London, 15 October 2014 – Rubina Real Estate has made the step among the national winners in the European regional stage of the International Property Awards 2014-15 – and got the chance to represent Europe in the latter stages of the Awards whilst receiving the Award **'Highly Commended Real Estate Agency Germany'** during the 20th glittering gala and presentation dinner at the Marriott Hotel in Grosvenor Square, London.

The Award as **'Highly Commended Real Estate Agency Germany'** represents a significant achievement for **Rubina Real Estate** as the company was up against a number of high-profile real estate agents and property consultants in the region and were judged against a strict set of criteria by over 70 highly respected experts from all over the world and is chaired by three active members of the House of Lords: Lord Caithness, Lord Best and Lord Courtown.

Stuart Shield, President of the International Property Awards, said he was "very proud" to honour high achievement among Europe's real estate agencies and property consultants.

Presidents, CEOs, Managing Directors, Chairmen and other decision makers have attended a number of professional networking events including seminars, discussion tables and an exhibition. The event presents an ideal opportunity to make connections and generate new business and is open to all industry-related companies and suppliers in addition to award participants.

About Rubina Real Estate

Rubina Real Estate GmbH is a full service real estate agency based in Berlin with offices in Hong Kong, Vietnam, China, Washington and Singapore. They offer solid properties in attractive areas for overseas investors. Services include property search assistance, pre-purchase advice, purchase process assistance and after sales asset management.
